

Preventive care is the best way to promote the health of your feline family member.

Why choose a preventive care plan?

- **affordable monthly payments**
- **exceptional veterinary care**

The veterinarians and healthcare team of **River City Veterinary Hospital** believe in preventive wellness care. This is accomplished through routine semi-annual comprehensive exams, vaccinations, parasite prevention, urine and blood screening, good oral health and client education encompassing nutrition and behavior.

Pet Annual Wellness Plans (PAW Plans) offer an affordable way to provide high quality preventive healthcare to your pet. PAW Plans are NOT insurance. They are designed to provide routine healthcare and diagnostics at a discount. With regular checkups, illnesses and diseases can be detected early, before they become worse and more expensive to treat.

By bundling services and spreading the yearly cost over 12 months, you and your pet can concentrate on staying healthy.

Exceptional value. Exceptional care.

Today, most aspects of veterinary medicine are geared toward preventive care. We believe proactive preventive care not only will improve the quality of your pet's life but will add years to it.

At **ANY** age of life, taking advantage of our prevent plans will assist in early detection and treatment of disease. These plans were designed to provide exceptional value and the best in veterinary care for your pet. Knowing what your pet's care will cost and being able to budget for it just makes sense.

It all starts with a plan – Please ask us!

WE CARE and love to communicate!

No matter what life stage your pet is at, there is a PAW Plan available. PAW Plans are designed to promote and maintain good health for the life of your pet by offering regular checkups and diagnostic testing for early disease detection.

We would be happy to help you choose the most appropriate PAW Plan which meets your pet's needs and your budget. Give us a call at 208-888-7300 for more information.
